EDUCATION

BSc Information Technology

Eduvos, 2021 – 2023

Graduated Cum Laude

CORE SKILLS

Languages

JavaScript, TypeScript, Python, Java, Kotlin, C#, SQL

Frontend

React, Next.js, Remix, Shopify Hydrogen, Vue.js, Angular, Tailwind CSS

Backend and APIs

Node.js, REST APIs, GraphQL, Spring Boot

eCommerce

Shopify, Shopify Plus, headless commerce, Magento, Plytix (PIM), ERP/CRM integration

Cloud and DevOps

Azure, Azure DevOps, Git, MongoDB, MySQL

AI

LangChain, LangGraph, AI agents, generative AI, AI-assisted development

PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on commercial experience building headless eCommerce and enterprise web platforms. Specialist in Shopify Hydrogen, React and TypeScript, having built and migrated storefronts for Vans, Crocs, Birkenstock and Under Armour. Currently delivering B2B commerce on Shopify and Magento with ERP and CRM integrations. Cum Laude BSc IT graduate who uses AI-assisted development daily and builds AI agents with LangChain and LangGraph.

PROFESSIONAL EXPERIENCE

Full-Stack Developer — eCommerce Africa

Dec 2025 – Present

React, Node.js, Shopify, Magento, Plytix, Azure DevOps

- Build full-stack B2B eCommerce solutions for enterprise clients on Shopify and Magento, integrating ERP and CRM systems into unified commerce pipelines.
- Improve platform performance and scalability, reducing integration friction for clients' sales and operations teams.
- Work with Plytix (PIM) product data and deliver features through Azure DevOps sprints.
- Contribute to new European and South African client projects, broadening the agency's international delivery.

Full-Stack Developer — WebWiser (WBWR)

Nov 2024 – Nov 2025

React, Next.js, Remix, TypeScript, Node.js, Shopify Hydrogen, Tailwind, Figma, Git

- Migrated Vans South Africa (vans.co.za) to a headless Shopify Hydrogen storefront as part of a small team, significantly improving load performance through a dynamic, reusable component architecture; worked directly with Ares Holdings' marketing and design stakeholders.
- Built Shopify Hydrogen storefronts from scratch for Crocs South Africa (crocssa.co.za) and Birkenstock, with reusable React components and Storefront API (GraphQL) integrations, keeping full brand compliance.
- Maintained and extended the Under Armour Shopify Hydrogen storefront within an established codebase.
- Delivered across multiple concurrent client projects in an agile sprint environment while maintaining code quality.

Full-Stack Developer — LOOM Property Insights

May 2024 – Aug 2024

Angular, React, Vue.js, Java, Spring Boot, MongoDB, Azure DevOps

- Built frontend features in Angular, React and Vue.js and backend features in Java, Spring Boot and MongoDB for a live property data platform.
- Investigated production issues, supported deployments and ran sanity tests across a multi-service architecture.

CERTIFICATIONS

- Production AI Agents: LangChain and LangGraph, Udemy (Jul 2026)
- Chrome DevTools User, Google for Developers (Nov 2025)
- ML, Data Science and Generative AI with Python, Udemy (Oct 2024)
- Azure Synapse Analytics for Data Engineers, Udemy (Aug 2024)
- Microsoft Certified: Azure Fundamentals (Sep 2020)

AWARDS AND HIGHLIGHTS

Cum Laude Graduate: Eduvos BSc IT, awarded for academic distinction across the full programme.

Student Tech Expo, Selected Representative: Built a biometric facial-recognition access app (Kotlin, Android, Node.js, MySQL); selected to represent the institution and delivered to a live client.
